

THE VOLVO V90

*The new versatility.
Built for the way you live.*

We created the V90 for a world that demands versatility, without compromising elegance and sophistication. Whether choosing between the sophisticated, yet sporty R-Design or luxurious and elegant Inscription, you have the choice of the T5 Front Wheel Drive or T6 All Wheel Drive engines for powerful good looks with everyday practicality.

Inside and out, the V90 is wrapped in the best of Scandinavian design. The bold lines convey solidity and strength, style and

presence. The details are subtle and distinctive.

The beautiful, comfortable cabin will delight you and your passengers on every journey. Exceptional craftsmanship and fine materials enhance the feeling of precision and luxury, while the standard Panoramic Moonroof makes the most of the airy feel and Scandinavian design.

Everything we know has gone into the V90. This is the new Volvo estate, built to enhance every day.
