

April 08, 2019

To: **Retailer Partners (RPs & GMs)**
From: **Product Marketing, Communication**
Subject: **Model Year 2020 Price Announcement**

Dear Volvo Retailers,

The 2020 Model Year is an exciting one for Volvo, the all-new V60 Cross Country makes its way into our portfolio as the ninth model launch since 2015. And while some might say it is the end of the new model rollout, we like to call it the end of the beginning, because as V60 Cross Country rolls out, our flagship XC90 will receive a refresh, and there is still plenty of product news ahead.

V60 Cross Country

The all-new V60 Cross Country arrives in the summer of 2019 and is well equipped with a starting price of \$45,100, which is lower than the similarly equipped 2016 XC70 T5 Platinum AWD. Compared to the XC70, it provides more interior room and only slightly less cargo space, making it the perfect alternative to those XC70 owners who are ready for something new.

The signature Thor's Hammer LED Headlights come standard on the Cross Country along with these high-end features; Laminated Panoramic Moonroof, Blind Spot Information System (BLIS) with Steer Assist & Cross Traffic Alert with Autobrake, Hands-Free Power Operated Tailgate and our Collision Avoidance City Safety.

The all-new V60 Cross Country is a great alternative for someone who does not want to drive an SUV, but wants to sit up a little higher than a sedan or traditional wagon without sacrificing the car-like driving experience.

XC90

The most awarded premium SUV of all time enters its refresh year. With a host of exterior and interior enhancements. Each trim features a newly designed front grill; Inscription goes to a concave surface and adds more chrome to instantly grab attention, while the R-Design builds on the aggressive "tech" look with great attention to detail. The front and rear fascia have also received changes designed to give the XC90 a wider, lower stance. Momentum now includes integrated tail pipes for a bolder look as well. And of course, there are new dynamic wheel choices including a one-inch upgrade for T5 models, sure to differentiate the refreshed model and trims. We have also added several new exterior paint colors.

The XC90 is popular among young families; and to fulfill the needs of those people, we have increased versatility with a brand new six-seat configuration, available alongside the traditional seven-seat offer. The second row will feature bucket

seats which greatly facilitates ingress and egress to the third row seats – something current XC90 owners tell us is important to them. This is a significant competitive advantage not found amongst any of our German competitors in the segment.

These and many more upgrades continue to make the XC90 one of the most technologically advanced SUVs on the market as the refreshed 2020 model further cements its position as the benchmark of SUV design.

Starting MSRP for the refreshed XC90 is \$48,350 for the T5 FWD, while the T6 AWD stays at \$56,300.

XC40

There is no doubt that the XC40 had quite the introduction in 2018. Moving into its second year we have modified the XC40 packages and single options to reduce complexity and better align with the rest of our line-up. Our R-Design and Inscription trims will both have Metallic Paint, Panoramic Moonroof, the revised Premium Package and new Convenience Package standard. The Momentum trim will now feature Textile / T-Tec upholstery, Power Child Locks, Auto-Dimming Interior Mirror and Heated Wiper Blades as standard. Even with these changes, the 2020 XC40 Momentum starting MSRP will be unchanged at \$33,700.

Our model updates don't stop there; across our line-up we have made the 12.3" Digital Driver Display standard, as well as aligned our packages and single options to keep ordering simple. Pilot Assist – Driver Assistance System with Adaptive Cruise Control now features a haptic response through the steering wheel and our Intellisafe and City Safety features have also become more aligned throughout the model lineup.

Major updates have come to the R-Design trim for the 2020 Cluster 60 vehicles- adding standard Interior High-Level Illumination, Tailored Dash, and 4-Zone Electronic Climate Control & Cooled Glove Box (T5/T6 Only). The XC60 interior seating will mirror the S60 with Nappa Leather with Open Grid Textile upholstery available in Charcoal or Slate. XC90 will see an all new optional Blonde Nappa Leather upholstery. In addition to the interior updates, the R-Design exterior will have new treatment featuring High Gloss Black mirror caps, window trim and roof rails (XC/V models). For the first time ever in the US there will be an S90 R-Design trim available, specifications for this trim available in the order guide posted on the Volvo Cars Portal.

To better serve customer demand and inventory we have made a few powertrain updates. The S90 and V90 Cross Country T5 powertrain is deleted, while the V60 deletes the T6 powertrain. With these deletions we have adjusted the MSRP in favor of the customer.

As you can see, the end of the beginning is finally here. We are making more features standard streamlining our options and packages, and aligning our product offer like never before! It is exciting times here at Volvo and we are pleased to announce the full price range for the 2020 model year.

Best regards,

Bob Jacobs
VP of Marketing, Product, Customer Experience and Brand Communication

Volvo Model Summary

Sales Version	Suggested Retail Price (MSRP)
XC40 T4	\$33,700
