

PORTABLE NAVIGATION

Garmin nüvi® 760 portable GPS navigator featuring a specially designed holder by Volvo – the perfect combination

Volvo. for life

Enjoy Advanced Navigation on a Widescreen Display

Volvo engineers teamed with Garmin and developed a premium portable navigation system that mounts safely and securely in all new Volvos. The wide, bright touch screen allows you to navigate safely, keep track of your location, plan your route, select Points of Interest (POI), entertainment and much more. It even has pre-loaded data that will direct you to the nearest Volvo Retailer.

Built-in Features and Flexibility

The portable navigator comes fully loaded with detailed maps of North America (including Canada and Puerto Rico), and has over 20 text and voice languages to choose from including English, Spanish and French Canadian. Need to make a phone call? The system features Bluetooth® technology with built-in microphone and speaker. Want to listen to an audio book or play music? Use the built-in audio book or MP3 player. Other features include anti-theft lock, JPEG picture viewer, currency & measurement converter, calculator, FM transmitter...the list goes on and on.

Volvo Dashboard Mount

No suction cups required! The Volvo-developed holder mounts securely on the dashboard and gets power from the car's electrical system. So there are no messy wires to deal with! It's located within convenient reach of the driver and positioned for optimum viewing. The holder features variable tilt and rotation to help minimize reflections. When not in use, remove the navigator and the holder can be easily folded down.

Easy Updates: A USB cable is included for easy updates from your computer – such as new points of interest and maps.

No Suction Cup: This unit comes complete with a stylish holder designed and engineered by Volvo. It's neat, secure and there are no messy wires. It folds up or down and can be installed by your Volvo Retailer.

Touch Screen: Thin sleek design coupled with sophisticated technology, super-bright touch screen and voice guidance makes navigating easy.

Portable: Inserts or removes easily from holder. Slip it in your pocket or purse and use the rechargeable lithium-ion battery for navigation by foot or in another car.

PORTABLE NAVIGATION
